

Grades

When your grades for particular course assignments, discussions, quizzes, etc., have been published they will appear on your personal Grades page in the course. In addition, your personal Grades page will also display any feedback from your instructor regarding your grades or performance on assignments and discussions.

1. **Click** Assessments from the navigation bar (1) and **click** on Grades (2).

- Your Grades page will display all the assignments that will be graded for the course (1), your grades on graded assignments (2), and any comments for assignments and discussions left by your instructor (3). At the end of the course your Final Course Grade will also be viewable from your Grades page (4).
